EDUCATION

Los Angeles Pierce College   06/2019-06/2021

- Associate of Science, Computer Science   Transfer GPA: 3.9

- Transfer applicant for University of California

- Expected BA completion 06/2024

EXPERIENCE

Software Engineer Intern – CounselHero, Remote   10/2021-Present

- Developing educational tool that automates counseling using React, TypeScript, Bootstrap, and Redux

- Coordinating with backend and UI team to launch features in production, such as course planner, assessment tests, dynamic routes, etc.

- Converting legacy code to current best practices by transiting from class-base components to function-base components and updating React library.

- Implemented customizable filter search as well as built dynamic university search result page/components with responsive UI.

- Creating dynamic and responsive pages and components.

Tutor & After School Program Leader – ThinkTogether, Los Angeles   02/2019-08/2021

- Offered guidance and supervision for VEX Robotics club that consisted of 10+ active members.

- Provided STEM tutoring for 70+ students located in underprivilege communities.

ACHIEVEMENTS

- **Caltech:** "Best Social Good Hack"-Hacktech, 2021, Caltech

---

PROJECTS

Axess – NPM package that integrates with online IDEs to educate web developers about web accessibility and best practices.   Source Code

- Won "Best Social Good Hack" at Hacktech 2021.

- Built an online IDE to show how Axess works and connecting it to Firebase, storing data for machine learning.

- Created a Figma design and implemented it in the UI development and wrote a README.md to guide future contributors.

Stem-bound – Platform connecting professionals in STEM with underprivileged schools.   Source Code

- Designed Mockups using Figma and developed UI using React for the landing page.

Hungary! – Web app that teaches 300K different recipes with video and image support as well as step-by-step instructions.   Source Code

- Designed and built the entire app by creating dynamic components.

- Implemented like/unlike functionality using local storage.
